

Data Retention Policy

This policy sets the minimum retention and disposal requirements for customer and operational information.

1 Policy Purpose

Teams must keep records only for as long as required for legitimate business, contractual, legal, and regulatory purposes.

4 Customer Records

Customer account files, communications, identity records, and transaction records must be retained for 5 years after the customer relationship ends.

After the approved retention period, the Records Operations team must initiate secure deletion and record completion in the disposal register.

5 Legal Holds

A legal hold suspends ordinary deletion until Legal releases the hold in writing.
